

EQUIPMENT OVERVIEW

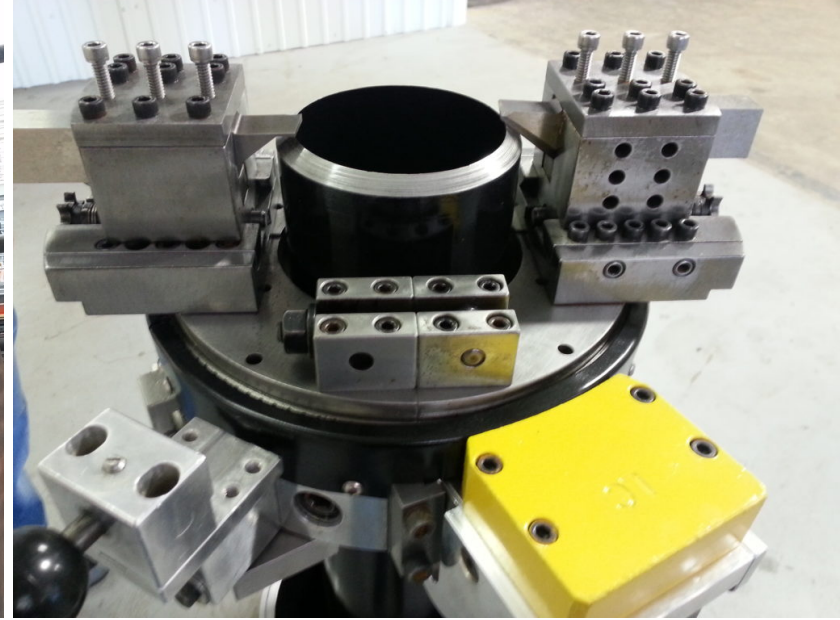

The most versatile on-site machining equipment in the industry

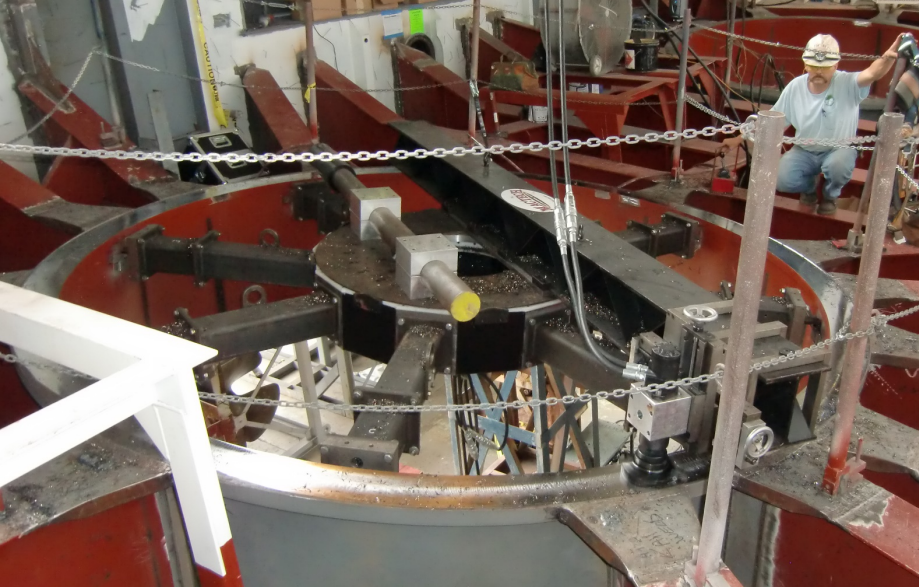

www.mactechonsite.com

PORTABLE LATHES

Lathes are designed for minimal clearance requirements and easy installation.

- ▶ Clamshell, Shaft and End-Prep Lathes
- ▶ OD, ID and end mounting
- ▶ Cut and bevel up to 110" OD

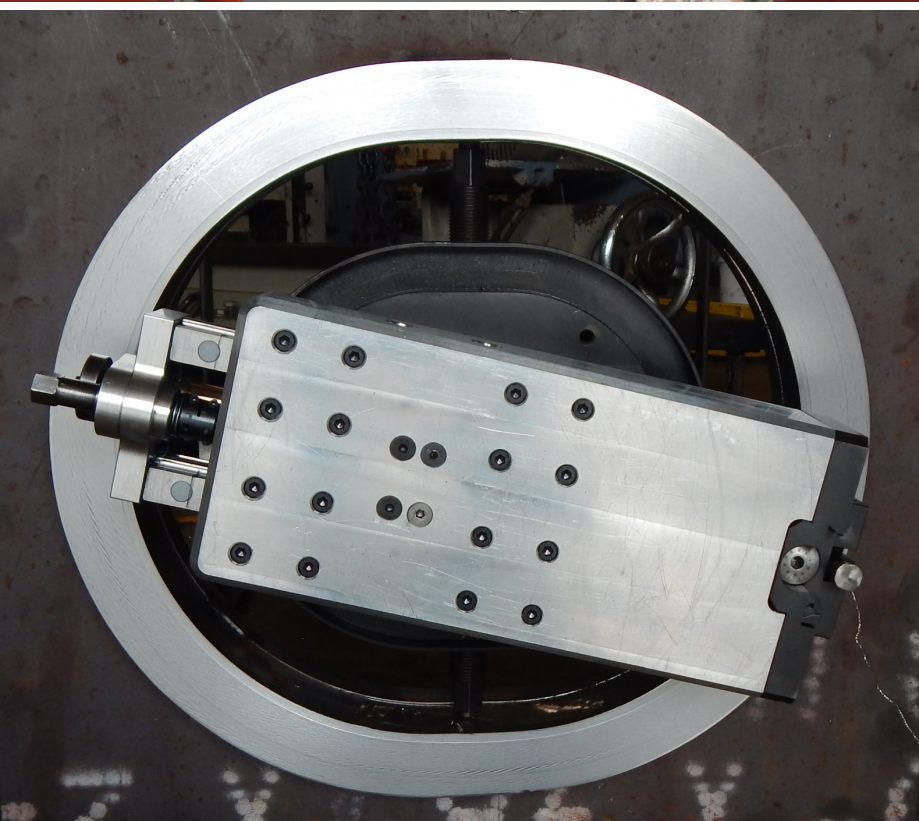

FLANGE FACERS

Quality flange machine work for the perfect sealing surface.

- ▶ Ring Type Joint
- ▶ Elliptical Manways
- ▶ 20 foot maximum diameter

PORTABLE MILLS

The precision millwork of a machine shop brought to your job site.

- ▶ Rail, Boring and Gantry Mills
- ▶ Curved or flat surfaces
- ▶ Infinitely variable power feed
- ▶ Travel lengths available up to 120 inches

LINE BORING

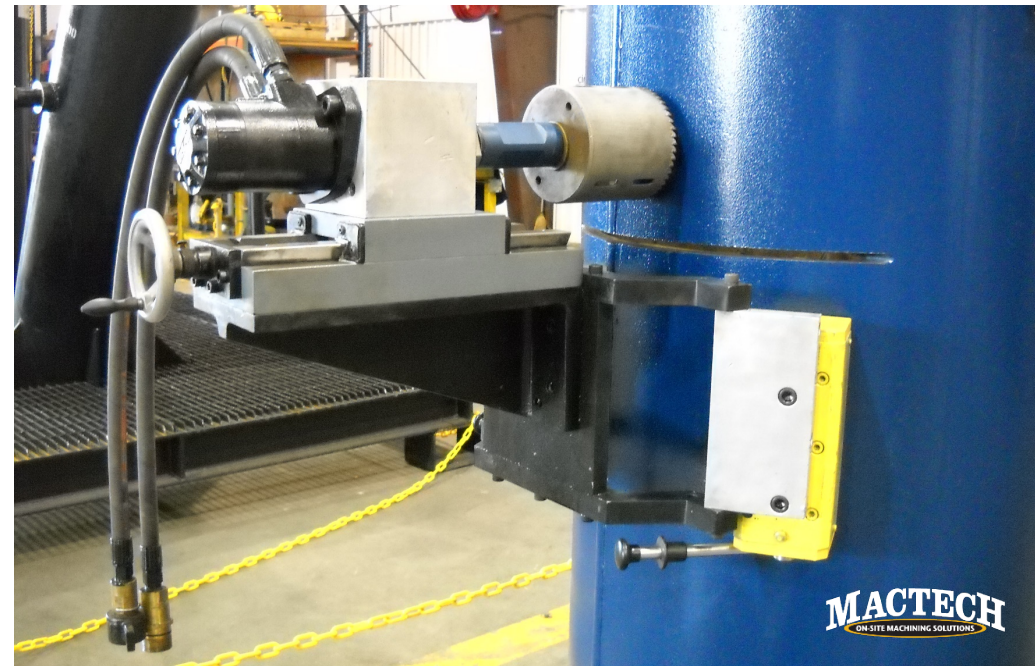

The most versatile and widest size range of portable line boring equipment on the market.

- ▶ Multiple Bore Bars (MBMC)
- ▶ Bore-welding add-on available
- ▶ Up to 96" ID cutting ability

INDUSTRIAL DRILLS

Drills for any surface: flat, radial, inside or outside.

- ▶ Magnetic mounting available
- ▶ Compact and versatile
- ▶ Weld-prep with the same machine
- ▶ Holes up to 8 inches

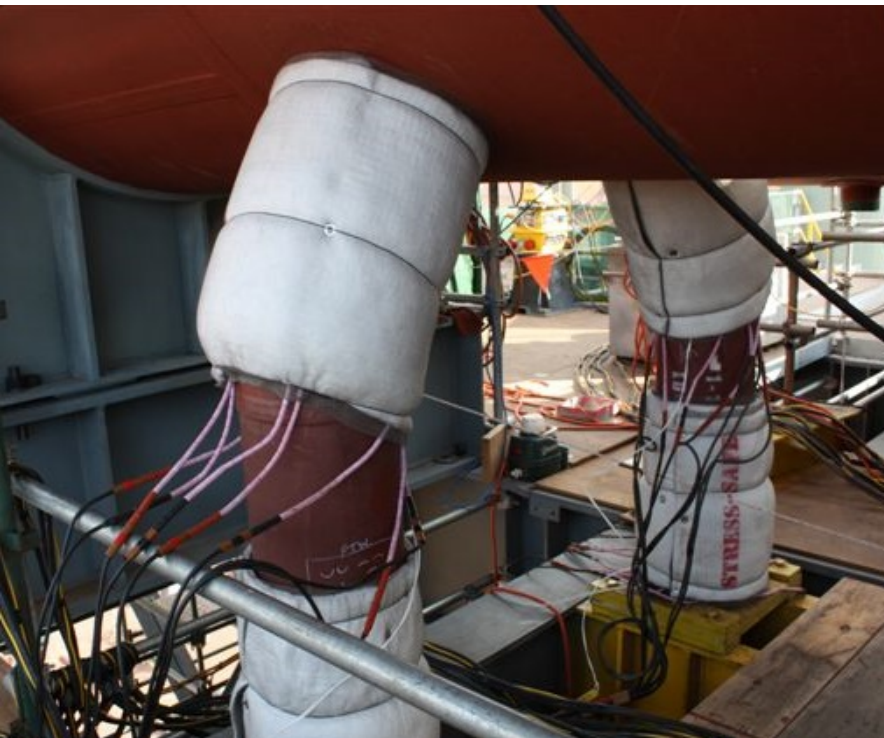

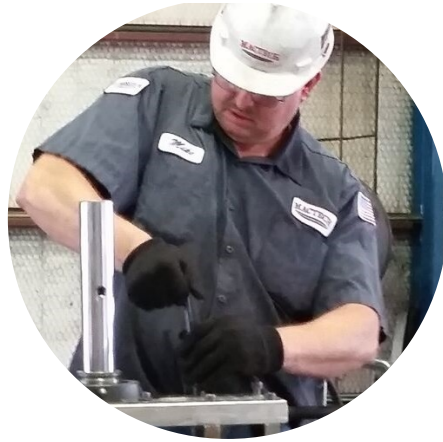

STRESS RELIEF EQUIPMENT

Everything you need for preheat, PWHT and temperature tracking.

- ▶ Heat pads
- ▶ Temperature controllers
- ▶ Data loggers
- ▶ Zap guns

WORLD CLASS TECHNICIANS

Our skilled technicians are well trained and experienced in a wide range of portable machining industry applications including refining, power generation, ship building, military equipment, and more.

DESIGN, MANUFACTURE, SELL AND OPERATE

Mactech is the OEM of the products we offer.

Machinery is designed and built in-house.

- ▶ Most equipment available in choice of pneumatic, electric, or hydraulic drive
- ▶ Custom solutions can be developed by request
- ▶ World-class technicians on-call 24/7/365
