

<b>Title:</b>	Offshore Technician
<b>Location:</b>	Mactech South – Broussard, LA
<b>Job Classification:</b>	Full-Time, Non-Exempt
<b>Compensation Range:</b>	Depends on Experience
<b>Reports to:</b>	Louisiana Operations Manager

#### **Why work for Mactech?**

Mactech is a world leader in the production of portable machining and heat-treating equipment. We maintain high industry standards for quality and cost. We often work in unusual, varying and interesting environments, but we are always up for the challenge. All our products are crafted by experienced machinists and built with the finest, most durable materials available. Our business is built on the trust of our clients and our skilled and reliable team members. Therefore, we are always looking to add team members that demonstrate our core values: Wow Them, Work Safe, Work Hard, We before Me and Welcome Challenges.

Do YOU have the ability to add value to our organization? If so, we would love to hear from you!

A Mactech Offshore Technician must have excellent mechanical ability. Logical thinking to troubleshoot problems with mechanical, electrical, hydraulic and diesel engine systems is a must. You will be responsible to operate our cutting and machining tools in accordance with our operating procedures and perform cleaning, maintenance and repairs on our wide range of equipment. Our equipment ranges from On-Site machining tools such as drills, flange facers, boring bars, and pipe beveling machines to underwater cutting tools such as diamond wire saws and the support equipment such as hydraulic power supplies, control panels, hose reels & umbilicals.

#### **Essential Job Functions (Including but not limited to):**

- **Workshop Operations:**
  - Assist with shipping & receiving needs by loading & unloading trucks using forklifts or overhead crane and checking in shipments against packing lists.
  - Staging equipment in designated areas for storage, maintenance, or shipment
  - Cleaning equipment in the wash bay using a pressure washer or parts washer and other cleaning products.
  - Perform maintenance and repairs on equipment as directed by the Operations Manager or Workshop Operations Supervisor to a high standard of quality and accuracy.
  - Testing equipment pre- and post-maintenance to meet our quality control and records keeping standards.
  - Pulling parts and equipment from inventory to fill customer orders & requests.
  - Using tools and equipment such as welders, plasma cutters, torches, band saws, lathes and mills to fabricate or repair equipment.
- **Offshore & On-Site Operations:**
  - Operate Mactech Offshore equipment according to our operating procedure equipment in a variety of settings including offshore platforms, floating vessels, construction sites and industrial settings.
  - Maintain Mactech Offshore equipment according to our maintenance procedures and industry best practices.
  - Troubleshoot issues which may arise and make repairs in a timely and quality manner.
  - Communicate with our customers project leads to understand and prepare for operations.
  - Hold toolbox talks, do risk assessments and complete JSA's at the start of each shift.
  - Accurately track and report daily operating usage and costs while on location
  - Keep detailed logs of operations records and times of events related to operations.

**Required Skills:**

- Excellent communication skills.
- Ambitious and works at a quick pace, but with diligence and attention to detail.
- Place safety and quality at the forefront.
- Maintain a neat and organized work area.
- Ability to work with other team members, highly flexible, "Get it Done" attitude.
- Time management skills, the ability to schedule and prioritize tasks unsupervised.
- Mechanical aptitude or ability to learn about our products, retain and apply the information.
- Ability to read and comprehend instructions & procedures and perform basic math.

**Physical Demands:**

- Stand, walk, sit, use hands to fingers, handle or feel objects and tools, frequently the employee will be required to bend, squat, kneel, stoop, reach, twist, climb, rotate and crawl.
- Lifting and or moving limitations will require regular lifting or moving of 50 pounds or less.

**Position Type and Expected Hours of Work:**

- This is a full-time position.
- Days and hours of work are Monday through Friday, 8 a.m. to 4:30 p.m. when you are in the shop.
- When working onsite you may be required to work 12+ hour shifts for 7-day work weeks for multiple weeks at a time.
- Working overtime as needed.

**Work Environment:**

- Working with, in or around exposures to high noises, chemicals, vibrations, hot/humid, cold conditions, and other outside weather conditions.

**Travel:**

- 50%-60% travel is expected for this position when working onsite.
- Frequent overnight travel is also expected.
- Both domestic and international as required by Mactech.

**Required Education and Experience**

- High School Diploma or Equivalent.
- Previous experience and technical expertise in a similar position.

**Additional Eligibility Qualifications:**

- Must have a valid Driver license, or State issued photo ID.
- Successful completion and passing of fit for duty physicals, background checks and drug & alcohol testing programs.

**EEO Statement:**

Mactech provides equal employment opportunities to all employees and applicants for employment and prohibits discrimination and harassment of any type without regard to race, color, religion, age, sex, national origin, disability status, genetics, protected veteran status, sexual orientation, gender identity or expression, or any other characteristic protected by federal, state or local laws.
