

# ON-SITE MANWAY MACHINING

## MACTECH PORTABLE MACHINING SOLUTIONS

Repair manway sealing surfaces in place for quality gasket sealing. Oval manways, circular manways, round doors – all machined true and accurate without grinding.

Resurface both elliptical and round manways, as well as round doors; various sizes and configurations.

On-Site Machining – Flange facing, milling, line boring, pipe cutting and beveling, drilling and more.
